We are getting the boxes moved asap when Jon gets a schedule. The over loaded ones were transferred to others.

Steve,

I talked to Melton yesterday afternoon while driving home, and he said it went well. I'll get the sludge boxes scheduled to be received at US Ecology.

Did the boxes get transferred at Ingleside? If so how did it go?

Steve

Steve,

Below is the proposal from Sprint to transfer sludge into additional boxes and haul them to the disposal site. It's a T&M quote with an estimated total of \$13,000.

Attached are rates for containers and spill response and the other is for maintenance. The project below would be billed off the Maintenance Sheet for the transfers and of course the containers and transportation would be the other.

Thanks JP. I assume that you're proposing to do this work on a T&M basis, and \$13,000 is the estimated total. Please send me a rate sheet.

Mr. Kiggans,

Estimated pricing to remove approximately half of the BS&W from 4 metal lid boxes into 4 vacuum boxes for transportation of all 8 boxes to disposal. Once we start and we see how much can go into the boxes. We can adjust to fewer boxes. I am going off a worst case scenario.

\$13,000.00

Utilizing 1 air machine, 4 man crew including supervision, 4 vacuum boxes, 100' ADS hose and PPE.

4 - 5-axle roll off transports to deliver empty vac boxes and transport 8 loads to disposal (USET).

Manifests by customer.

Duration -- 1 Day.

Washout of boxes is cost plus 20%.
